Arkansas Medicaid

Statement of Medical Necessity
for Adult Patients ≥ 19 Years of Age Being Treated with a C-II Stimulant

Fax completed form to 1-800-424-7976

To expedite the prior authorization review, provide this completed form, current chart notes, and a letter of medical necessity.

If the following information is not complete, correct, or legible, the prior authorization (PA) process can be delayed. Please use one form per beneficiary. Information contained in this form is protected health information under HIPAA.

As alternatives to using a C-II stimulant: Atomoxetine, clonidine IR, and guanfacine IR do not require prior approval for treating adult ADD/ADHD. Qelbree® is non-preferred and requires documentation of medical necessity over atomoxetine and preferred C-II stimulants.
